

# COMBUSTION

## AND FLAME SAFETY SOLUTIONS

COMBUSTION CONTROL SYSTEMS | FLAME SAFEGUARDS AND  
DETECTORS | FUEL TRAINS | HEAT EXCHANGERS | IGNITORS  
INDUSTRIAL BURNERS | SAFETY SWITCHES | RATIO AND FLOW  
CONTROL | SHUT OFF AND VENT VALVES | ACTUATORS

# THE COMPONENTS YOU REQUIRE THE EXPERTISE YOU CAN COUNT ON

## ARE YOU EXPERIENCING:

- Increased maintenance on your current burner system?
- Problems maintaining temperature in combustion chamber zones?
- Concerns about the safety of your current combustion system?
- Searching to find experienced technical and specification support?

ACI Controls is available to help you specify new combustion systems and fuel trains, recommend upgrades and retrofits, and provide replacement components from our extensive stocked items.

## THE BRANDS YOU TRUST

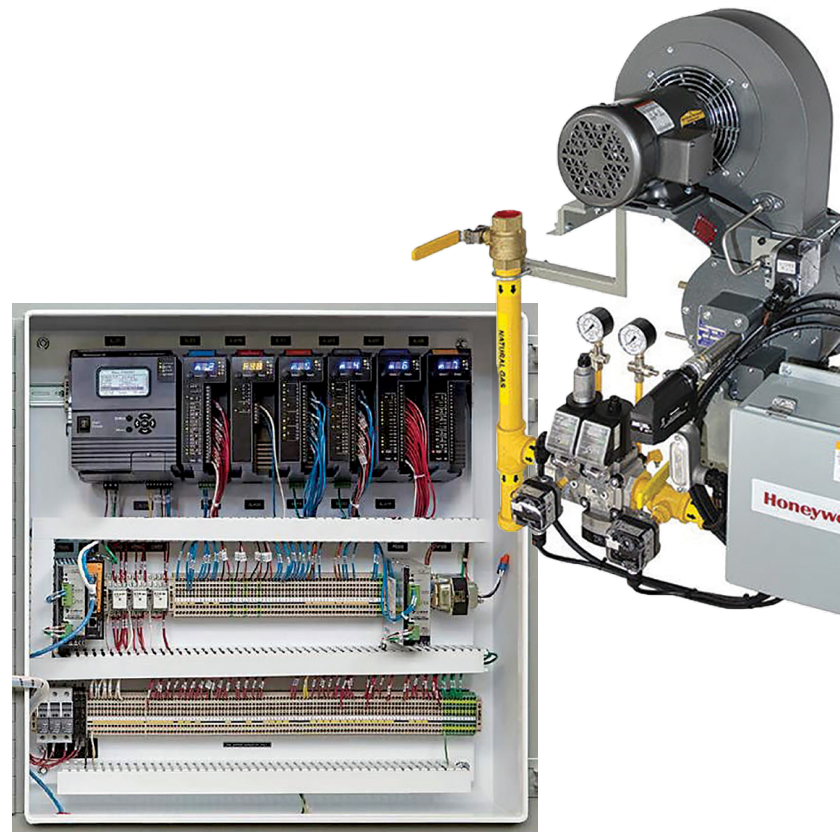

Honeywell Thermal Solutions

## CUSTOM CONTROL PANELS & PRE-ASSEMBLIES BUILT TO NFPA STANDARD

ACI Control's engineered systems team designs and builds fully integrated control panels and pre-assembled Burner Systems for combustion control, including burner management and fuel-air ratio control. Built onsite, pre-wired, and pre-tested, these durable panels are ready for immediate installation, minimizing errors, downtime, and setup time.

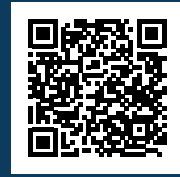

## CHECK US OUT ONLINE!

We invite you to check out our Combustion Industry page on the ACI Controls website for our complete line of combustion products, industry news, blogs and much more.
